COLORFAST

ThreadworX fibers are carefully hand dyed to be colorfast, due to the strict regulations imposed by the FDA on dye chemicals no fiber can be guaranteed 100% colorfast by specialty product manufacturers.

The FDA, with the additional voice of the EPA, has removed many of the "setting" ingredients (such as lead) in dyes so now we must take special precaution with any colored fabric or thread.

We seldom have a problem with our colors running but we cannot guarantee complete colorfastness.
